

A message for caretakers:

The PA Youth Advisory Board developed this activity book in an effort to make the often-complex Youth Bill of Rights easily digestible for young children. The importance of this activity book lies in the learning material presented in a manner that caters to the understanding of children on the rights they have while involved in foster care. The activity book is intended to help children learn about their rights in a highly interactive way. As the adult caretaker, we encourage you to have an open and honest dialogue with your child and be open to any questions or opinions they may have as they navigate through the book.
